

# KULM HOTEL ST. MORITZ

150 Years Kulm Hotel St. Moritz

## Children in the Kulm Hotel St. Moritz: the Family Hotel par excellence

Holidays! Finally one has time to do something with the children and enjoy some new adventures. In the Kulm Hotel St. Moritz children profit from the varied activities that the “Marmotta Club” has ready for them. Truly, a paradise in the most beautiful high valley in Switzerland.

Surely there is nothing better than spending a few free days with ones loved ones and doing that for which there is usually no time. So that its guests can enjoy their family holidays in full measure, the Kulm Hotel St. Moritz offers a large variety of fun and entertainment opportunities. Our many rooms with connecting doors also help ensure that holidays with children are a success.

### *Fun, Fun, Fun*

Our little guests from three years of age and up can take advantage of exciting attractions and varied entertainment in the Marmotta Club, with our own childcare expert in attendance. The many-sided weekly program is especially popular with the little ones. Mixing cocktails and baking pizza nourish the creativity as well as the stomachs of the children. Their bursting energy finds an outlet in the fitness room and at dinner the whole family can review the day's events. Parents don't have to forego time for themselves; an experienced babysitter is on hand to look after their offspring if needed.

In the summer there's another surprise for our young guests in store at the Kulm Hotel St. Moritz: the Alpine Fun Activities. Under expert direction, children age 7 and up get to know an entirely different side of the mountain world with their parents. One of the attractions is the multi-sport day, with cliff scaling, rappelling, mountain biking and sailing or the art of archery. Working with an event partner, hotel guests both young and old enjoy adventure and get to know the Upper Engadine: an unforgettable experience.

## *Family Arrangements*

The Kulm Hotel has especially for families exclusive summer arrangements. From fishing, horseback, or mountain biking- trips in the region, sailing or kayak courses on the lakes, exciting excursions to the Engadine glaciers, making cheese in the cheese factory in the woods and much more. Creativity does not come to short this summer: the families have the chance to create their own master piece of art with a professional artist.

Many a child has later gone on to enjoy holidays with his or her own family in the Kulm Hotel St. Moritz, revelling in happy memories. And so generation after generation discovers the magic of the 6th star and its ability to light up the eyes of children.
